Process Equipment
Pumping Solutions for Process Industries

PROVEN QUALITY. LEADING TECHNOLOGY.
Our Husky air-operated double diaphragm pumps are loaded with features to help you get the job done right, every time, and are built to save you money.

**Rugged construction**
Resists corrosion for reliable performance and long life

**Heavy-duty design** - Offers long life, increased productivity and lower overall cost of ownership

**Flow rates** up to 300 gpm (1135 lpm)

**Lube-free** for cleaner operation

**DataTrak™** available to prevent pump runaway and track material usage
The Husky Advantage
Loaded with Options

Choose from a wide selection of materials to handle numerous applications, including corrosive and abrasive fluid transfer.

Key Fluids
- Paints, stains, coatings, inks and dyes
- Chemicals
- Acids
- Corrosive and abrasive fluids
- Lubricants
- Ceramic glazes
- Sludge, slurry and waste fluid
- Soaps, detergents and solvents

Husky 716
3/4 in (19.1 mm) connection
Max flow: 16 gpm (61 lpm)
Aluminum, stainless steel

Husky 515
1/2 in (12.7 mm) connection
Max flow: 15 gpm (57 lpm)
Polypropylene, acetal, PVDF

Husky 307
3/8 in (9.4 mm) connection
Max flow: 7 gpm (26 lpm)
Polypropylene, acetal

Husky 205
1/4 in (6.3 mm) connection
Max flow: 5 gpm (19 lpm)
Polypropylene, acetal, PVDF

Available materials of construction and accessories may vary depending on pump model.
Hose Pumps

EP Series
Peristaltic Hose Pumps

Graco’s positive displacement hose pumps rotate a full 360-degrees. Because they use a single roller to compress the hose once per revolution, your hoses last longer so you have less maintenance and downtime.

Efficient Pumping Action
One hose compression per revolution extends hose life

Low Maintenance
Quick replacement of hose

Removable Cover - Easier access to internal parts, making maintenance fast and simple

Integral Drive Train - Pump speeds as low as 1 rpm

Hose Clamp Assembly
One-piece “quick change” assembly for easy service

EP2
Max flow: 0.8 gpm (3.0 lpm)
Ideal for chemical metering applications

EP3
Max flow: 2.4 gpm (9.0 lpm)
Typically used for chemical metering and sanitary applications

EP4
Max flow: 19.5 gpm (73.8 lpm)
Ideal for abrasive material transfer applications
Hoses Built to Handle the Toughest Jobs

Only the interior of the hose is in contact with the fluid being pumped, making it easy to sterilize and clean the inside pumping surfaces. The gentle pumping action is ideal for shear sensitive materials and fragile cell cultures.

Innovative Hose Design
Graco’s 360-degree hose pump is designed to put 40% less stress on the hose compared to conventional shoe pumps running at the same flow rate. The hoses are highly engineered for long life and durability and are available in a wide variety of configurations for the most demanding applications and materials.

Choose from 4 different hose materials to meet your specific application requirements

Hydra-Clean®
On-Demand High Pressure Cleaning

Graco Hydra-Clean heavy-duty pressure washers are perfect for use in a variety of in-plant cleaning applications and can be used with hot or cold water, detergents or strong chemical solutions up to 200°F (93°C).

Wall-mount and cart-mount options

300 Series Stainless Steel Lower
Compatible with many extreme chemicals and ideal for use with open-head drums

Supports multiple guns

Five different spray tips - Standard
Husky
Transfer Pumps

Easily pump from 55 gallon drum with flow rates up to 16 gpm (61 lpm). Available in aluminum, carbon steel, stainless steel and polypropylene.

*Suction tube* immersed inside the drum

*Quick-priming* and immediate flow of product

*Fluid viscosities up to 5,000 cps*
and solids up to 0.09 in (2.29 mm)

*Air tight seal* for moisture-sensitive fluids

*Bung adapter* fits into any 2 in (50.8 mm) bung opening

Fast-Flo® 1:1
Transfer Pumps

Deliver a smooth, reliable flow. Drum length and stubby models are available in either carbon steel or stainless steel materials of construction. Ideal for a variety of non-corrosive and corrosive materials.

*Flow rates* up to 5 gpm

*Immersed inlet* for faster priming of heavier fluids

*Air-powered* for high reliability and low cost

*Disc check* options for lower viscosity fluids
ABOUT GRACO

PROVEN QUALITY. LEADING TECHNOLOGY.

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company’s success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco’s ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
